

Otto 2-Wheel Mini Plastic Collection

Small in Size. Huge in Qualities.

2-Wheel Mini Waste Containers

MGB	60 mini
Nom. Volume (l)	60
A – Overall Height (mm)	658
B – Overall Width (mm)	465
C – Overall Depth (mm)	534
D – Upper Edge Comb (mm)	593
E – Wheel Diameter (mm)	200

Plastics for quality and economic efficiency

Superior material quality and workmanship, low dead weight, user friendly: these are the outstanding features of the wheeled plastic containers made by OTTO.

Material high density polyethylene (HDPE)

- Environment-friendly
- Long service life
- Suitable for recycling
- Frost-resistant
- Resistant to chemicals
- High resistance to UV radiation

Lid with bow-type handle

Optional extra: third handle

- handle position in the lower front area facilitates container handling in basements

Comb-type frontal receiver

- Deeper combs ensure optimum accommodation by the lifting device and facilitate the use of side loaders
- Additional honeycomb / diamond texture for high safety and a long service life
- Eight webs in the chip nest ensure reliable chip positioning
- Comb design according to DIN or AFNOR, DU receiver (Diamond) as an optional extra

Wheel / Axle

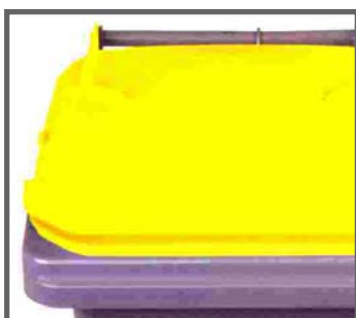

- Solid rubber tyres
- Solid material provides high stability (heat-treatable steel)
- Corrosion protection by electrogalvanising and chromating

Handle bar, diameter 30mm

Handle bar

- Optimised ergonomic design by larger tube diameter

Lid with lip handle

Deeper combs ensure optimum accommodation on the lifting device

Optional extra: individual marking

- White OTTO logo on the body
- Hot stamping
- Serigraphy on the body and the lid
- Marking by laser
- Injection moulding of texts, coats of arms, etc.
- Inmould labeling on request

Smooth interior

- Ensure optimum emptying and easy cleaning
