

3-WHEEL  
**MGB 370**

# THE NEW LIGHTNESS MGB 370

1

Introducing a container that tilts like a two wheeled container but has the maneuverability of a four wheeled container! First time that turning and driving of a large 2 wheeled container gets more simple. Owing to its third swivel wheel the new third-wheel container is lighter and easier to move. The two extra large wheels to the rear of the container allow for easy handling – completely regardless of the ground condition.

## ERGONOMIC SUPERIORITY

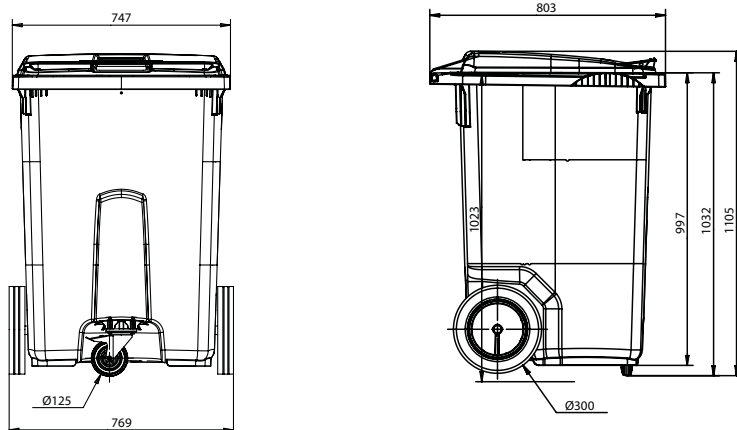

- Even with the high capacity of the container it is still very easy to manoeuvre
- Safe handling
- Simple filling
- Fast emptying because of the large-sized cross section of the container
- Relaxed handling: turning and manoeuvring with the new revolutionary third wheel

2

## BIN STORAGE AREA SPECIALIST

- It is suitable for small rooms and entrances in industrial areas
- Optimal utilization of the storage place
- A brake on the third wheel also prevents the container from rolling away

## DIMENSIONS

## BIN REPLACEMENT BY MGB 370

Turn on the spot

Precision and Ergonomy

The revolutionary third wheel

3

**THE TILTING FUNCTION**

- Simple tilting on the large rear wheels
- The ergonomically recessed footstep at the rear and the extra big wheels support the tilting of the container

**SUSTAINABILITY AND CAREFUL USE OF RESOURCES**

- Saving resources; guarantee sustainability
- OTTO uses secondary raw materials, economizes energy, reduces CO<sub>2</sub> emissions and optimizes the usage of material

Recessed Step at the rear

Third Wheel

**DETAILS**

Capacity	370 l
Dead weight/ Useful load	approx. 19 kg/144 kg
Material	HDPE, UV stabilized
Wheels	2 Wheels Ø 300 mm 1 Wheel with brake Ø 125 mm rubber tyres
Standard	EN 840
Colours	grey, green, blue – special colours are available on request

**OPTIONS**

DIN or AFNOR comb
Glass- / Paper insert
